Best Practice -1

Title of the Practice: Encouraging Active Learning Approaches in Education

Objectives of the Practice: Increase student participation in class discussions, group activities, and interactive sessions. Foster teamwork by encouraging collaborative projects and group assignments. Integrate interactive technologies such as online simulations, virtual labs, or educational apps to make learning more engaging. Incorporate reflective activities where students can review and evaluate their own learning progress.

The Context: Acquiring a higher education allows students to develop holistically, giving them access to learning opportunities and enhancing their employability. It is not always possible to enrich curricula with all the knowledge and expertise needed for their academic progression and move towards internships and lead to placement opportunities.

Practices: With the assistance of research institutes and other higher education institutions, the department/college arranges training programs that broaden students' views and provide them with new skills. The college has implemented project-based learning, which has encouraged students to experience themselves like scholars.

Evidence of Success: The overall impact of above -mentioned efforts has helped students and teachers to go beyond the curriculum and learn beyond the scope of the curriculum. Hands on training sessions especially for undergraduate students has equipped them practically.

Best Practice- 2

Title: Popularizing ICT-Based Teaching-Learning System

Objective: Netaji Mahavidyalaya has emphasized to popularize ICT based teaching-learning system to raise the level of digital competency of the students.
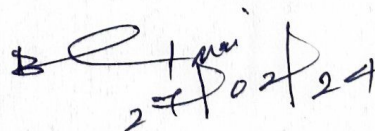

Context: As the students have been compelled to remain outside the campus for a long time due to imposition of lockdown in view of Covid-19 pandemic

Practice: Academic Activities was carried out through the use of

1. Smart/E-Classroom

2. ICT Enabled classrooms

3. The College Website

4. Common Online teaching platforms

5. Webinar

6. YouTube Channel

7. Students gave feedback regarding the institution using the google form provided in the website.

Evidence of Success: Use of ICT based teaching, common online teaching platforms helped the students in getting their syllabi complete within stipulated time thereby enabling them to take their final examination and get their respective mark sheets.

Problem Encountered and resource required: A number of students could not avail the online facility due to the lack of smart phones and laptops. Poor internet connection in distant rural location also was an obstacle in the path of online teaching.
